

## **An Invitation**

The Town of St. Joseph's River Crossing Committee will have Paul Bilotta from Stantec Consulting Services speak about how communities are impacted by a major bridge event and what kind of actions need to be taken to be ready for that impact. This is a special invitation for you to hear Paul talk about his experience as the City of Shakopee's Community Development Director as the Hwy 169 Bridge entered that community. Have you wondered about what the area will look like in 20 years and what can be done now to assure that happens? Maybe you're concerned about increases in traffic, environmental pollution or keeping the rural character of the area. You might even be wondering about the possibilities for more recreational opportunities or a broader tax base to relieve homeowners' tax bills. Come for the information and bring your questions.

**What:** How Communities Can Manage Changes Associated with the St. Croix River Crossing

**When:** Monday, June 3, 2013

**Time:** 6:30 p.m.

**Place:** St. Joseph Town Hall – Intersection of St. Croix County Roads V and E
